Ozark, Ky.

SERIOUSLY SHOT.

Will Ross, of Irish Bottom, Cumberland county, accidentally shot himself at the Hancock Hotel, this place, last Sunday afternoon. He was alone in his room and was cleaning his revolver when it was discharged. The ball entered his right thigh, cutting the main artery, and for awhile it looked like the young man would bleed to death. Finally Drs. Grady, Taylor and Hindman got the bleeding checked, and later cut into his thigh, caught and tied the severed artery. At this writing the young man is resting easy, but serious complications may arise.

CHAPTER 68

An act creating the offices of fish and game wardens and defining the powers and duties and fixing the compensation of such officers, and for the further protection and preservation of fish, game and birds in the State of Kentucky:

Be it Enacted By The General Assembly of The Commonwealth of Kentucky:

1. The officers of fish and game wardens are hereby created.

2. The county judge of each county shall appoint one or more fish and game wardens for each county in the State, who shall hold office and be subject to removal therefrom at the pleasure of the county judge. Each game warden, before entering on the duty of his office shall execute his bond to the Commonwealth, with good surety, to be approved by the county judge.

3. It shall be the duty of fish and game wardens to enforce within this State all laws relating to the protection, preservation and propagation of fish, birds and game. Each fish and game warden shall have full power to execute and serve all warrants and process of law issued for, in connection with or growing out of, the enforcement of any law relating to the protection, preservation or propagation of fish, birds and game in the same manner and to a like extent that any sheriff or constable may serve and execute such process, and shall be entitled to the same fees for said services as are now allowed by law to sheriffs for similar services in criminal cases. They may arrest on sight and without warrant any person detected by them in the act of violating any such law; they shall have the same right as sheriffs to require aid in executing any process or in arresting without process any person found by them in the act of violating any of said laws; and they shall have authority to seize without process, and birds, fish or game then found in the possession of any such person, together with the guns, nets, seines, traps or other devices with which the same were taken or killed, and destroy or confiscate such guns, nets, seines, traps or other devices, and forthwith convey such offender before a court or magistrate, having jurisdiction of the offense, and such court or magistrate shall, upon the filing by the warden of a proper complaint, proceed speedily to try and determine the truth of the charge.

4. After payment of the percentage of fines allowed by law to the other public officers, the remainder shall go to the fish and game warden instituting the prosecution, and upon filing a verified claim with the auditor, he shall draw his warrant upon the Treasurer in favor of such fish and game warden.

Approved March 21, 1904.

Judge Paynter, of the Appellate Court, in dissolving the injunction restraining the operation of the Covington poolrooms, says that courts of equity have no jurisdiction to restrain the commission of crimes, nor to enforce moral obligations, and when they seek to do such it is a clear usurpation of the jurisdiction of the criminal court.

A prominent Texas political candidate is named Onion. They think down there that he will add strength to any ticket.

SERIOUS QUESTIONS

The great number of members a lodge can obtain does not necessarily make her the most useful. I fear, even at this time, more danger of some of our lodges breaking down from having too many than from too small a number of members. Let me also remind you that Ancient Craft Masonry begins with the Entered Apprentice degree and ends with the Royal Arch degree, and that so much of Masonry is pure and perfect, venerable with antiquity, hoary with age. Beyond this all is modern, new and ornamental, adding nothing to its strength and grandeur, and may serve to subtract something from its simple and austere beauty.

Masonry needs nothing new, for her ritual is simple, impressive, unique and sublime, her incantations are truths—immortal truths, with an assemblage to our race that must exist until wrong is banished from the world and virtue reinstated on her ancient throne—until suffering has no want to relieve and sorrow no tear to dry.

Let no humble brother of the blue lodge distrust the fact that all of Masonry is contained in the three ancient degrees with the instructions of the Royal Arch, nor let him become envious of those who claim to be his superiors in Masonic knowledge because they have affixed to their names the appellation of some presiding officer in the so-called higher bodies. When these titles appear in public print they are only calculated to make the vulgar stare, and with the right feeling, sensible Mason or man of the world excite derision and contempt.

Are we making too many members of lodges and too few Masons? Complaints from this evil come all around us. We have heard it in the past, it assails our ears in the present. Are we endeavoring to make Masonry popular?

Do you think more of the fees for the degrees than of the good of Masonry?

These are questions for serious consideration. The remedy, "a more unsparing use of the black-ball," is every Master Mason's prerogative—Grand Master Tennis, Pennsylvania.

Cheap beef cattle and high-priced roasts show that something is radically wrong. There is an injunction against the beef trust, but that outfit doesn't seem to mind it the least bit. Prices are controlled at both ends by the packers just the same as of yore.—Farm and Home.

DEMOCRATIC CONVENTION.

Democrats of Adair county met at the court-house last Saturday afternoon and after electing N. M. Tutt Chairman and J. E. Murrell Secretary, the following resolutions, offered by Jas. Garnett, Jr., were adopted:

Be it resolved that we approve the call for this convention and the convention to be held in Somerset August 25, 1904, to nominate a Democratic candidate for Congress.

2. That we heartily endorse the National Democratic platform adopted at St. Louis, and we endorse the nominees, Parker for President and Davis for Vice-President, who are a platform in themselves.

3. We condemn fraud and rascality and pray for deliverance from the hands of those who are now practicing the art in the 11th district of Ky.

4. That Noah Loy, M. T. Mercer, H. B. Simpson, John D. Lowe, S. H. Murrell, Bramlette Abrell, Porter A. Murrell, Gordon Montgomery, R. L. Campbell, C. S. Harris, Judge James Garnett, Col. E. Butler, J. W. Sublett, Dr. S. P. Miller, W. B. Rowe, W. M. Wilmore, Zach Campbell and all other Democrats of Adair county be and they are appointed delegates to attend the convention to be held at Somerset Aug. 25, 1904, and they will cast the vote of Adair county for Hon. C. W. Metcalf, of Bell Co., for the nomination for Congress in this district, and will vote on all questions that may come before said convention, in connection with his nomination, as said Metcalf may request. In the event no Democrats from Adair county attend said convention, H. S. Robinson and J. T. Horn are directed to act as proxies and cast the vote of Adair county as herein directed.

SOURCE OF JAPANESE VIGOR.

The Japanese are allowed to be among the very strongest people on earth. They are strong mentally and physically, and yet practically they eat no meat at all. The diet which enables them to develop such hardy frames and such well-balanced and keen brains consists almost wholly of rice, steamed or boiled, while the better-to-do add to this Spartan fare fish, eggs, vegetables and fruit. For beverages they use weak tea, without sugar or milk and pure water, alcoholic stimulants being but rarely indulged in. Water is imbibed in what we should consider prodigious quantities. To an Englishman, indeed, the drinking of so much water would be regarded as madness. The average Japanese individual swallows about a gallon daily in divided doses.

The Japanese recognize the beneficial effect of flushing the system through the medium of the kidneys, and they also cleanse the exterior of their bodies to an extent undreamed of in Europe or in America.

Another—and perhaps this is the usage on which the Japanese lay the greatest stress—is that deep, habitual, forcible inhalation of fresh air is an essential for the acquisition of strength and this method is sedulously practised until it becomes a part of their nature.—From The Medical Record.

MINERAL WATER.

It Has Been Recently Found on the Farm of J. C. Morrison, Taylor County.

This well is on the Campbellville and Greensburg pike, five miles from the former place and seven from the latter. The well is 88 feet deep and the water is as cold as a person would want it. It is situated on Mr. J. C. Morrison's place, who is making preparations to take a few boarders.

The following gives a full explanation: Agricultural Experiment Station, State College of Kentucky.

Lexington, Ky., July 30, 14, 554.—Mineral water sent by J. C. Morrison, Campbellville, Taylor county, Ky., July 18, 1904. The sample was received July 21, 1904, in pint bottle. The water smelled strongly of hydrogen sulphide and there was a deposit of sulphur in the bottle.

ANALYSIS.
The water contains 320.9 grains of solid matter to the gallon, composed mainly of chlorides and sulphates of sodium, calcium and magnesium, some calcium carbonate and traces of iron, potassium and lithium compounds and a trace of borates. The water contained also a very considerable quantity of hydrogen sulphide. Is very good saline sulphur water.

OVERREACHED.

President H. Capen, of Tufts College, was talking to a little group of undergraduates about the wisdom of economy.

"But while economy is wise," he said, "to be mean or niggardly is the height of foolishness. The niggardly man is nearly always overreached. It is like—"

Here Dr. Capen smiled.

"It is like," he resumed, "the story of the miser and the mouthful of water."

"This miser had a cask of wine in his cellar, and every evening he would send down his man to fetch him up a pitcher. To keep the man from drinking any of the wine he would make him fill his mouth with water before he left the room. Then on his return the man would have to prove that the water still remained in his mouth, and thus the miser would be convinced that none of the wine had been stolen."

"This scheme seems ingenious, and yet the servant with the greatest ease overreached his master. He kept a pitcher of water hidden in the cellar, and, emptying his mouth on his descent, he would drink all the wine he desired, and upon his return upstairs would still have a full mouth to show the unsuspecting master."

John Rhea is out of the race for Congress, and Jim Richardson is right in the midst of it. If faithful party service, breadth of brain and fitness for the place count for anything in the selection of a candidate, Richardson will win in a walk.—Horse Cave Gazette.
